Caterpillar c32 marine engine specifications

Separate aftercooling circuit - no sea water in aftercooler Emissions Use SCR technology to allow U.S. EPA Tier 4 Compliance with the final issue regulations while lowering operating costs, IMO III emissions comply with the control strategy Use the DEF-activated closed-cycle DEF dosing control strategy that provides: Size: 6,5 mm. Warranty modules for factory-packed components Global dealership network for service in any position Clean emission module IMO III certified (SCR required) Dimensions and weights Maximum height 1613 mm (63.5 in) Minimum width 1451 mm (57.1 in) Pulite emission module (CEM) - Dimensions 6 Matters U-Flow - Rated length 2159 mm(Lb). Specifications of Stroke Motor 162 mm (6.38 in) Dislocation 32.1 l (1959 inu00b3) Dimensions and weights Mximum dry weight Weight 3248 kg (7160 lb) Module clean emissions (CEM) - Size 6 brick U-Flow - Weight 560 kg (1235 lb) Dosing Cabinet - Length 949 mm (37.4 in) Engine specifications Aspiration Turbocharged-aftercool Module 146 L (38.5 gal) - deep pan Form of Pulite Emissions (CEM) - Dimensions Dosor Cabinet - Width 477 mm (18.8 in) dispenser - Weight 95 kg (209 lb) Engine Specifications Oil change Range 1000 hours - deep pan Cooling heat exchanger or chiglia cooled Flywheel Housing SAE n. 0 with SAE n. 18 flywheel (136 teeth) Rotation Anti-clockwise from the end of the flywheel Request on "Cat C32 Propulsion Engine (US EPA Tier 4 / IMO III)" Now The C32 ACERT ship propulsion engine is available in ratings that meet the EPA Tier 3 and IMO II regulations on emissions. It has a separate circuit after system cooling (SCAC) for A evaluation through C and a seawater cooling system (SWAC) for D and E ratings. The C32 ACERT has seven ratings with Wide Operating Speed Range (WOSR) and extended oil exchange intervals. Other advantages include proven engine operation history and performance iron with thousands of hours validation testing for quality and durability. The C32 ACERT marine engine is supported by the vast network of global Cat retailers and standard warranty. Caterpillar Marine announced the launch of the new Cat C32B at high performance 2,000 hp (2,025 mhp) marine engine with a nominal engine speed of 2,300 rpm. This engine meets the needs of the emerging market and expands the power capacity of the C32 high-performance product line, offering a 5% power increase on existing C32 ratings, said Caterpillar officials. lwho know the current C32 engine can expectlook with the new model, as well as most of the same connection and footprint points. The engine will be available with the same emissions certifications as current high-performance C32 ratings, including EPA Tier 3 recreational and IMO II. In addition to improving power density, additional benefits include updated electronics (ADEM 6 ECM) and an enhanced injector fuel system, allowing multiple injections to improve noise and vibration characteristics from combustion. "We are very excited to offer our customers more power with the C32B engine, while also helping to reduce engine noise and continue to provide excellent engine performance and reliability." Allen Bowman, marine product strategy engineer for Caterpillar Marine, said in a prepared statement. "The C32B will provide expanded opportunities for our customers for new construction and repower options, which is generating excitement about the future of C32B and what will lead to the market." The Cat C32B marine engine will be available for order in autumn 2020. This engine is equipped with industry leading warranty cover and support of the Cat dealer network, which works to ensure superior support and service not only during initial sale, but throughout the life of the engine. engine.
